

Lviv Polytechnic National University
Institute of Power Engineering and Control
Systems,

Head of Department of Heat Engineering and Thermal
and Nuclear Power Plants, prof. Mykhailo Semerak
5 Ustyianovych str., Building 10, Room 201
79013 Lviv, Ukraine

Application
(send an email before 14 March 2019)
for conference

ALTERNATIVE & RENEWABLE ENERGY
SOURCES AS ALTERNATIVE PRIMARY
ENERGY SOURCES IN THE REGION.
4--5 April 2019

Surname: _____

Name: _____

Appointment: _____

Academic degree, title: _____

Organization: _____

Postal address: _____

Tel.: _____

Fax: _____

E-mail: _____

Title of Presentation: _____

Hotel reservation for _____ person

from _____ to _____

- Oral report
 Poster presentation
 Participation without presentation

Conference languages are:

Ukrainian, English, Russian

PUBLICATION

Conference materials will be published in the
Conference Proceedings.

Paper should be prepared according to the Conference
Topics as MS Word document, do not exceed 4 pages
(pictures including), an is to be sent via email to
omukha6@gmail.com

The file should be named after to the name **of the first
author** (for example Korneychuk.doc)

**Deadline for submission of the Papers –14 of March
2019**

Requirements to preparation of the papers:
(desirable to place text on a whole number of
pages). Set the formatting of the document
following:

- Times New Roman font, size 12, style - regular
(normal);

INVITATION

**X INTERNATIONAL
SCIENTIFIC CONFERENCE**

**ALTERNATIVE & RENEWABLE ENERGY
SOURCES AS ALTERNATIVE PRIMARY
ENERGY SOURCES IN THE REGION**

4-5- April 2019

Lviv

We are glad to invite researchers, consultants, representatives of industry, specialists from administrative structures and all the interested to *X International Scientific Conference*

ALTERNATIVE & RENEWABLE ENERGY SOURCES AS ALTERNATIVE PRIMARY ENERGY SOURCES IN THE REGION

Traditionally organized in the Lviv Polytechnic National University attracts the attention the international organizations and responsible structures in this region. Topics of the conference are dedicated to actual questions of development of renewable energy sources, energy efficiency, opportunities for greater using of local and new sorts of fuel, and implementation of energy efficient technologies.

Lviv region is one of three regions of Ukraine reserves of renewable energy sources. How most effectively we can replace traditional energy to green energy, which technology and equipment we should use - these and other issues will be the subject of our discussions at the conference based on the objectives of the National Action Plan on renewable energy for the 2020 year and the commitment of Ukraine to reduce carbon emissions according to the Paris Agreement signed in 2016, on combating climate change.

We hope that our meeting will be fruitful and efficient in fixing of the initiatives and establishing of new ones for distribution of positive experiences. For this purpose there are all pre-conditions, including that one, that the Conference will be held in Lviv – the pearl of Ukraine.

Programme Committee

Mykhailo Semerak	Ukraine (chairman)
Henryk Sobchuk	Poland (deputy chairman)
Myroslav Malovany	Ukraine (deputy chairman)
Volodymyr Berzan	Moldova
Jaroslav Kultan	Slovakia
Stepan Kydrya	Ukraine
Orest Mukha	Ukraine
Myroslav Malovanyy	Ukraine
Aleh Rodzkin	Belarus
Juriy Romanyshyn	Ukraine
Yaroslav Spak	Ukraine
Sergij Syrotyuk	Ukraine

Conference Topics

- **The role of regional power to ensure energy security**
- **Cogeneration plants**
- **Wind energy**
- **Solar energy**
- **Hydro energy**
- **Geothermal energy**
- **Biomass**
- **Energy conservation**
- **Environmental aspects of energy conservation**
- **Techno-economic and financial aspects of energy facilities**
