

CONTENTS

- 1 Vasyluk A., Basyuk T.**
Intellectual analysis of the replacement process
for the algebra algorithm formulas
- 8 Karpov I., Burov E.**
Use of ontological networks in decision support systems under ambiguity
- 16 Peleshchak R., Lytvyn V., Peleshchak I., Vysotska V.**
Development of an artificial neural network with oscillatory
neurons for recognition of spectral images
- 24 Kravets P., Yurynets R., Kis Y.**
Patterns of self-organizing strategies in the game of mobile agents
- 35 Kunanets N., Matsiuk O., Pasichnyk V., Tabachyshyn D.**
Procedures for assessing equal the “smartness” of a city
- 42 Pryshiak A., Kunanets N., Pasichnyk V.**
Intellectual system of formation of personal educational
trajectories in IT
- 51 Kulchytskyy I.**
Text normalization during pre-corpus preparation:
experience of application
- 59 Burov Y., Mykich K., Veres O.**
Situation awareness support system in the software
testing process
- 70 Dubas Y., Kunanets N.**
Application of the method of multidimensional average
in formation of individual educational trajectories
of students of it-specialties
- 78 TPliasun B., Kunanets N., Veretennikova N.**
An information system for comparing partner
employment schedules
- 87 Lytvyn V., Uhryn D.**
Methods of swarm algorithms solution
of applied tasks
in geoinformation systems
