

# CONTENTS

- 1 Basyuk T., Vasyluk A.**  
Information technologies for popularization increase of commercial Internet resources
- 13 Tatchyn S., Basyuk T.**  
Information system for supporting the process of protected voting
- 23 Pryshliak A., Kunanets N., Pasichnyk V.**  
Processes and elements of big data analysis of distance learning systems
- 30 Kunanets N., Zhmurkevich O.**  
System of message exchange and data processing of ecological and natural communities
- 39 Senyk A., Manziy O., Futryk Yu., Stepanyuk O., Senyk Yu.**  
Information system supporting decision-making processes for forming of securities portfolio
- 56 Batiuk T., Vysotska V.**  
Information support for personalities socialization processes based on common interests
- 87 Pasichnyk V., Yunchyk V., Fedoniuk A.**  
Procedures for assessing the quality of electronic learning resources using petal diagrams
- 103 Baranov M., Shcherbina Yu.**  
Comprehensive analysis of few-shot image classification method using triplet loss
- 110 Kalynych Yu., Bilak Yu., Nebesnyi R., Fedorka P.**  
Mathematical and software formation process of simulations on a graphical processing unit
- 127 Veres O., Levus Ya.**  
Recommendation system for planning leisure in quarantine conditions
- 145 Oleksiv N., Vysotska V.**  
Mobile information system for human nutrition control
- 173 Bihun R., Lytvyn V.**  
Modeling of territorial community development processes
