

# CONTENTS

- 1 Biliakovskiy I., Kuznyetsov O., Romanchyshyn O., Dzoba T.**  
Application of an on-board electric vehicle  
air conditioner in the battery cooling system
- 12 Baran P., Kidyba V., Ravlyk N.**  
Ensuring the selectivity of protection against single-phase ground  
faults in complex electrical networks
- 20 Varetsky Y., Gajdzica M., Koval O.**  
Concern of overvoltages on power filters in industrial electrical networks
- 31 Havdo I.**  
Magnetic field of a dc motor with excitation from permanent magnets
- 38 Sabat M., Shelekh Yu., Metlushko M.**  
Electromagnetic processes in transformers during  
their disconnection by vacuum switches
- 47 Semeniuk M., Kutsyk A., Misurenko V.**  
Mathematical modeling  
of frequency-controlled electric drive  
with dual-winding induction machine considering  
spatial harmonics
- 60 Yatseiko A., Bakhor Z.**  
Arc overvoltages in a 35 kV mixed  
air-cable electrical network
