

CONTENTS

- 1 Botchkaryov A.**
A method for decentralized control of adaptive data collection processes in autonomous distributed systems
- 8 Botchkaryov A.**
Autonomous decentralized computer network monitoring system based on software agents
- 20 Dementiev M., Lashko O.**
Algorithm for primary object recognition in the warehouse management system
- 29 Dzelendzyak U., Pazyniuk M.**
Aerial vehicles detection system based on analysis of sound signals
- 36 Ilnytskyi R., Karpa R.**
A computerized energy management system for a smart home
- 50 Kushnir D.**
Methods of tracking an arbitrary number of objects in real-time on a mobile platform
- 60 Lynnyk M., Nakonechny A.,**
Methods and algorithms of complexing images and thermal signals
- 72 Mychuda Z., Mychuda L., Yelisiaieva H.,**
Modeling the influence of components leakage currents on the accuracy of the recurrent LADCS
- 79 Obshta A., Buhaiets V.**
Cross-platform software system for the logistics of humanitarian services
- 89 Puida V.**
Device for controlling parameters of accumulator batteries and the corresponding direct current network
- 96 Puida D.**
Modification of a thread pool algorithm with multiple task queues
- 103 Sovyn Ya., Khoma V., Opirskyy I.**
Minimization of BITSLICED-representation of 4×4 S-Boxes based on ternary logic instruction
- 114 Kharchenko M., Paraliukh I., Karpa R.**
A smart system for managing the economic operation of a solid fuel boiler
- 125 Surkov Y., Shpak O.**
Research of the parameters of the modern climate control system in office premises
- 137 Kharchenko O., Klushyn Y.**
Specialized software platform for analysis of information in data stores
- 149 Shykhmat A., Veres Z.**
Selection of protocols for data transmission from Internet of things devices to cloud providers
- 160 Shpak O., Babyuk D.**
Research of the technology of using solar panels for charging electric vehicles
- 172 Yarkun R., Paramud Y.**
Features of algorithmic and software tools for framing fuzzy images
- 182 Yatskiv O., Klushyn Y.**
Algorithmic and software tools for automatic installation and starting of utilities in the Windows environment
