

# CONTENTS

- 1 Semkiv M., Chyrun L., Bublyk M., Shevchenko M., Chyrun S.**  
Information system for forecasting sales of building materials
- 24 Ohonovsky Yu., Berko A., Chyrun L., Chyrun S.**  
Information system prototype for monitoring and content analysis of complaints from smart city residents
- 46 Baran M., Bublyk M., Chyrun L., Shevchenko M., Chyrun S.**  
Information system of polyethylene quality control in the circular economy
- 79 Budnyk R., Yakovyna V.**  
Machine learning methods for control of non-playable characters behaviour in multiplayer rpg
- 93 Batiuk T., Vysotska V., Shevchenko M.**  
Intelligent system for user groups socialization with similar interests
- 121 Batiuk T., Dosyn D.**  
Intelligent system for clustering users of social networks based on the message sentiment analysis
- 139 Zaiats V., Zaiats M.**  
Information modeling of the processes of sensory perception of information and user identification
- 156 Vasyluk A., Basyuk T.**  
Algebras of algorithms for modeling the distribution of resources in IT projects
- 167 Kish Yu., Pasichnyk S., Kunanets N., Kut V.**  
Doctor's voice assistant application prototype
- 175 Hladynets O., Kut V., Lozytsky O.**  
Information system for remote support of legal services
- 189 Lytvyn V., Mushasta S.**  
Method of building embeddings of signs in deep learning problems based on ontologies
- 198 Kravets P., Yaremko N.**  
Project of the information system of sales on the charity auction platform
- 218 Kravets P., Tverdokhlib Yu.**  
Information system of feedback monitoring in social networks for the formation of recommendations for the purchase of goods
- 235 Burov Ye., Karpov I.**  
Choice of conceptualization of a problem situation by an intelligent agent in decision-making tasks
- 243 Berko A., Polivenok D., Shestakevych T.**  
Information systems for automating work flows: a comparative analysis
- 251 Pavliuk O., Medykovskyy M., Lysa N., Mishchuk M.**  
Intelligent system for analyzing battery charge consumption processes
- 274 Baran M., Vysotska V., Holoshchuk R.**  
Software for the implementation of an intelligent system to solve the problem of "cold start"
- 300 Lytvyn V., Rynkov A., Vysotska V.**  
Intelligent information system for automatic generation of symbols in the APP-6D standard
- 329 Ivantyshyn D., Burov Ye.**  
Database development for intellectual system for research of space weather parameters
- 338 Zholubak I.**  
Analysis of multiplication algorithms in Galuis fields for the cryptographic protection of information
- 350 Koshtura D.**  
Information technology for gender recognition by voice
- 361 Pasichnyk V., Yunchyk V., Kunanets N., Fedonyuk A.**  
Dissemination of knowledge potential in the e-learning process
