

CONTENTS

Infocommunication systems and technologies

- 1 Beshley M., Pryslupskyi A., Medvetskyi M., Beshley H.**
Intelligent traffic monitoring and analysis system to detect attacks in software-defined networks
- 12 Klymash M., Hordiichuk-Bublivska O., Tchaikovskiy I., Kostiv O.**
Investigation on efficiency of using of distributed databases efficiency in iiot systems
- 19 Yunak O., Strykhaliuk B., Klymash M., Shpur O.**
Construction of the fractal image of the “cantor dust” type, using a randomized system of iterating functions
- 26 Shubyn B., Maksymyuk T., Yaremko O., Fabri L., Mrozek D.**
Federated learning for 5g mobile networks
- 36 Shpur O., Pyrih Ya., Hordiichuk-Bublivska O., Pyrih Yu.**
Research and design of the information system for higher education institution
- 44 Buchyk S., Toliupa S., Buchyk O., Movchan D.**
Virtual lab tools for testing employees to determine readiness against phishing attacks

Radioelectronics

- 53 Lozynskyy A., Ivantyshyn O., Rusyn B.**
Using multi-position interferometry to determine the position of objects

- 62 Bolshakova I., Barylo G., Holyaka R., Marusenkova T., Shurygin F.**
Structure and calibration of functionally integrated devices for thermonuclear reactors magnetic diagnostics
- 75 Ozirkovskyy L., Marynovych V., Kolodiy R.**
Investigation of the effect of maintenance strategy parameters on the accident rate of the mobile communication system
- 83 Fabirovskyy S., Storozh V., Prudyus I., Gerey I.**
Construction of small-sized devices for radio-electronic suppression of compact unmanned aerial vehicles
- 97 Politanskyi R., Kachur V.**
Investigation of the entropy of binary sequences fragmented into fixed-length subsequences of symbols

Electronics and engineering

- 103 Petrovska H., Yaremchuk I., Melnykov S., Volyniuk D., Stakhira P.**
Study of liquid crystal cell doped with bodipy for lasing application
- 111 Druzhinin A., Ostrovskii I., Hoverko Yu., Liakh-Kaguy N.**
Using of microcrystals of silicon doped with boron and nickel in sensor techniques
