

# CONTENTS

- 193 Olga Sandul, Taras Titov, Anna Kulyk, Halyna Sakalova, Kateryna Shevchyk, Kateryna Petrushka**  
Reuse of the spent sorbent mixture for wastewater treatment
- 199 Vasyl Petruk, Andriy Polivyanchuk, Roman Petruk, Natalya Polyvyanchuk, Vadim Honcharuk**  
Innovative thin-film heliotechnologies of decarbonization and ecologization of municipal energy of Ukraine
- 204 David Mobolaji, Ayomikun Durotoye, Oluwole Daramola**  
Students' perception of environmental quality in public Secondary schools of Ibadan Metropolis, Nigeria
- 213 Vasyl Dyachok, Liubov Venher**  
Application of liquid extraction for wastewater treatment
- 218 Viktoriia Kochubei, Svitlana Yabolnyk, Myroslav Malovanyy, Nataliia Buchaichuk**  
Study of the influence of dispersion and conditions of thermal activation on the sorption properties of transcarpathian clinoptilolite and prospects for its application in environmental technologies
- 227 Illia Tsyhanenko-Dziubenko, Hanna Kireitseva, Joana Fonseca Araújo**  
Physiological and biochemical biomarkers of macrophyte resilience to military-related toxic stressors
- 235 Andrii Mats**  
Study of the overregulation of the Southern Buh river
- 241 Vitaliy Shcherba, Olha Pylypovych**  
Role of green-blue infrastructure in the formation of an eco-oriented city on the example of Kamianka-Buzka city
- 249 Olena Stepova, Svitlana Shara**  
Development of water protection in European countries: relevance for Ukraine
- 254 Oksana Illiash, Tetiana Serha, Astrid Allesch, Viktor Bredun, Iuliia Chepurko, Nataliia Maksiuta**  
Comparative analysis of the study results on the component composition of municipal waste in settlements of township and village type in the Poltava region
- 262 Vira Sabadash, Oleksiy Lopushansky**  
Decarbonisation of industrial gas emissions by adsorption methods
- 268 Oleksandr Ivashchuk, Volodymyr Atamanyuk, Roman Chyzhovych, Stepan Bacho, Stanislav Boldyryev**  
Investigation of the efficiency of a beet pulp filtration drying process
