

CONTENT

TRANSFORMING AND PROCESSING THE MEASUREMENT SIGNALS

Berezhnyi Ihor, Nakonechnyi Andrian

Wavelet-based RPPg signal analysis: cwt for spectral peak localization and identification
with pulse oximeter validation.....5

MEANS FOR MEASURING THE ELECTRIC AND MAGNETIC QUANTITIES

Serdenko Taisiia, Kabatsii Vasyl, Rosul Ruslan, Prots Larysa

Measurement and control methods in electrical engineering.....12

MEANS FOR MEASURING THE THERMAL QUANTITIES

Petrenko Dmytro, Hotra Oleksandra

Uncertainty budget of temperature measurement by the methods
of monochromatic one- and two-color thermometry with emissivity correction18

MEASUREMENT OF NON-ELECTRIC QUANTITIES

Mashevska Marta, Maksym Trushevykh

Monitoring system for the population status of rare and endangered
fauna species in ukrainian nature reserves.....27

MEASURING TRANSDUCERS

Flint Mykola, Pokhodylo Yevgen

Admittance method for measuring the electrophysical parameters of concrete.....38

Pavlo Hamyla, Mykhaylo Myhal

Application of high-entropy alloys in strain sensors.....43

MEASURING SYSTEMS

Radchenko Oleh, Yatsuk Vasyl, Yatsyk Andriy

Features of on-site calibration of measurement channels in distributed systems.....48

Mykyichuk B., Sasovets N.

Enhancing the metrological autonomy of local measurement systems52

Bubela Tetiana, Osechko Nazar

Study of the impact of illumination level on attributive measurement system
at an automotive industry enterprise57

AUTOMATION OF EXPERIMENTAL RESEARCH

Bershchankyi Yevhen, Klym Halyna

Data preparation strategies in kubeflow for cloud-native ai systems66

METROLOGY, QUALITY, STANDARTIZATION AND CERTIFICATION

Chornoivanenko Kateryna, Povzlo Yevhen

Evaluation of microhardness uncertainty components of composite material73

Pasternak Volodymyr, Brynach Dmytro

Analysis of the features of existing and perspective methods of metrological verification (calibration) of level gauges	80
---	----

Kutyansky Ostap, Rybak Yurii

Systemization of requirements for operational quality control systems of meat products	83
--	----

INFORMATION AND MEASUREMENT TECHNOLOGIES IN MECHATRONICS AND ROBOTICS

Velychko Oleh, Kursin Sergii

Modeling of property evaluation of system-oriented measuring instruments	87
--	----

COMPUTERIZED AUTOMATIC SYSTEMS

Vlakh-Vyhrynovska Halyna, Boretskyi Bohdan

Implementation of an apache spark computing cluster based on raspberry pi microcomputers	92
--	----

Uhryn Lesya, Baran Mariana, Teppand Tõnis

Information system for researching the ecological state of nature-reserved territories.....	98
---	----

Novitskyi Pavlo, Stepanyak Mykhailo

Methods of creating directional electromagnetic interference for selective influence on GPS/glonass: a review.....	105
---	-----
