

CONTENT

TRANSFORMING AND PROCESSING THE MEASUREMENT SIGNALS

<i>Povoroznyk Volodymyr, Mykytyn Ihor</i>	
Impact of audio signal duration on the accuracy of speaker voice identification	5
<i>Khoma Yuriy, Shchudlo Ivan</i>	
Criteria for the quality assessment of large language models	10

MEANS FOR MEASURING THE THERMAL QUANTITIES

<i>Pytel Ivan, Kovalchuk Dmytro</i>	
Diagnostics of resistance temperature detectors under operating conditions	16

MEASUREMENT OF NON-ELECTRIC QUANTITIES

<i>Druzyakin Vladyslav, Hryhoriy Cherepashchuk</i>	
Innovative approaches to improving the accuracy of tenzoresistors measurements of mechanical variables.....	21

BIOMEDICAL MEASUREMENTS AND DEVICES

<i>Mykyychuk Mykola, Chaban Olesia, Chaban Oleh</i>	
Cyber-physical systems as a tool for digital modernisation of laboratory diagnostics in accordance with ISO 15189	24

MEASURING TRANSDUCERS

<i>Isaiev Valentyn, Velychko Oleh</i>	
Metrological traceability for instrument transformers applications.....	30

MEASURING SYSTEMS

<i>Koval Andrii</i>	
Use of the method of decomposition of singular values for estimation of noise level and detection of sensor calibration violations in information and measurement systems.....	38
<i>Zdorenko Valerii, Basaliuk Maksym, Moroz-Parkhomenko Oksana</i>	
Information-measuring system for microclimate control in the exhibition modules of the Kyiv Zoo	43

AUTOMATION OF EXPERIMENTAL RESEARCH

<i>Dekusha Oleg, Zaporozhets Artur, Vasylevskaya Valentina, Burova Zinaida</i>	
Monitoring of industrial premises with installed electrical distribution devices	48
<i>Lagun Andrii, Chyshynska-Hlybovykh Liliana, Baran Mariana, Miller Foster Melanie</i>	
Improving climate monitoring systems through object-relational mapping technologies and real-time analytical processing.....	55

METROLOGY, QUALITY, STANDARDIZATION AND CERTIFICATION

<i>Kurylyak Nazar, Yatsuk Vasyl</i>	
The risks impact analysis on the production and installation process of all-glass structures.....	64

INFORMATION AND MEASUREMENT TECHNOLOGIES IN MECHATRONICS AND ROBOTICS

<i>Ryshkovskyi Oleksandr, Lukashiv Markiiian</i>	
Vibration parameter prediction algorithm for objects based on historical data for predictive maintenance	72
<i>Nakonechny Adrian, Vyhrynovskyi Mykhail-Mishel</i>	
Integration of modern artificial intelligence technologies in the processes of continuous integration and deployment of software	80
<i>Stepanov Oleksandr, Bershchanskyi Yevhen</i>	
Deeper wasm integration with ai/ml: facilitating high-performance artificial intelligence and machine learning models in micro-frontend applications	85

COMPUTERIZED AUTOMATIC SYSTEMS

<i>Lazaruk Illia, Klym Halyna</i>	
Smart soil moisture monitoring for IoT-controlled automatic plant irrigation	92
